

Environmental Policy

Date February 2009

Policy Statement

The Board of JMP Consultants Limited recognises the importance of sustainability in protecting and preserving our environment and has drawn up this Environmental Policy which is promoted and controlled through our Environmental Management System (EMS).

The EMS has been developed in accordance with the requirements of ISO 14001 – Environmental Management Systems. Environmental procedures set out in the EMS are documented, implemented and maintained by JMP employees who are appointed by the Board and have received the appropriate training. The EMS procedures are communicated to all people working for or on behalf of the Company through the Company Intranet.

The principal objective of JMP's Environmental Policy and the associated EMS procedures is the promotion of sustainability through professional transport planning and engineering services. The EMS also includes objectives to monitor and improve the environmental impacts of office-based activities and energy efficiency, and to encourage employees to use sustainable methods of transport for commuting and business travel. The Policy aims are appropriate to the nature and scale of JMP's professional services business and office operations and are set out in detail in the EMS.

The Board of JMP is committed to continual environmental improvement and the prevention of pollution. This includes complying with all applicable legal and other environmental requirements in connection with the promotion of sustainability through the professional services provided, the projects delivered and our office-based activities.

JMP's Environmental Policy and EMS procedures are reviewed by the Board annually, or more frequently in response to specific events. The EMS provides a framework for setting, monitoring and reviewing specific environmental objectives.

This Environmental Policy is available to the public through the JMP Website www.jmp.co.uk

Quality Policy

Date February 2009

Policy Statement

The Board of JMP Consultants Limited recognises the importance of quality and has drawn up this Quality Policy which is promoted and controlled through our Quality Management System (QMS).

The Quality Management System (QMS) consists of interactive processes which together aim to show consistency in service provision and achieve the requirements of our Clients.

The QMS Policy covers all the services provided by JMP including Transport Planning; Passenger Transport; Urban Regeneration; Traffic Engineering; Intelligent Transport Systems; Highway Engineering; Structures; Water & Drainage; Environment; Development and Infrastructure.

The QMS has been developed in accordance with the requirements of ISO 9001 – Quality Management Systems. Quality procedures set out in the QMS are documented, implemented and maintained by JMP employees who are appointed by the Board and have received the appropriate training. The QMS procedures are communicated to all people working for the Company through the Company Intranet.

The Board of JMP is committed to comply with requirements and to continually improve the effectiveness of the QMS.

JMP's Quality Policy and QMS procedures are reviewed by the Board annually, or more frequently in response to specific events. The QMS provides a framework for setting, monitoring and reviewing specific quality objectives.
